Current affairs Pattern-led practice

40 newly written questions, with dated answers and official source links.

30 days | 3–4 hours daily | English explanations

40 worked questions • Prepared 20 October 2026

How to use: Attempt every question in a type before reading its solutions. Cover the answers on paper, or use the answer toggle in the HTML workbook. Redo errors after 1, 3 and 7 days.

Coverage: One section is provided for each mapped syllabus/question family. Each section places practice questions first, then worked answers and a shortcut or solving rule. Each regular Part A/B section now includes two new questions marked Additional practice. Original pattern-based expected practice is included throughout; it is informed practice, not a prediction or a claim to reproduce every historical question.

Syllabus status: The 2026 advertisement verifies the exam scheme for 41/26. The supplied 56/24 subject syllabus is used provisionally: a separate 41/26 subject-syllabus PDF was not verified. Follow any later official 41/26 notice. Exact exam date was not supplied; timetable days are relative.

What the papers suggest about current affairs

The reviewed papers use short factual recall, correct/incorrect pairs and statements: event-location, report-statistic-year, award-person, sports host/winner, institution and scheme details. This is an observed format summary, not a statistically representative frequency ranking.

Evidence	Observed format	Preparation action
P33 Q14,19; P35 Q14,19-20	Events, collaborations, host countries and sports awards	Store event + year + location + winner.
P28 Q21-25	Technology event, rollout count, dated report and sports host	Record report release year separately from data year.
P09 Q29,34-39	Scheme, sports winner, committee, day, appointment and congress venue	Include institutions and schemes; do not read only sports news.

Practical window: For a roughly November 2026 exam, prioritise the preceding six months, then cover major January–April 2026 events and durable 2025 milestones. This is a study allocation, not an official DSSSB cutoff. The 2023 paper includes older references, so “only last six months” is unsafe.

Daily 15 minutes: 5 minutes recall old cards; 7 minutes verify 2–3 significant new facts on official sources; 3 minutes write questions. Limit each fact to event/year/person/place/purpose. On Days 7,14,21,29 quiz the accumulated set.

> **Currency:** Sources checked on 20 October 2026. This is a selected 40-question set, not a complete monthly current-affairs digest. No future event or unverified forecast is presented as a result. Recheck appointments, policy changes, ranks and revised statistics near the exam.

Use the historical wording: “According to report X released in year Y” asks that report’s value, not today’s value. A scheme announcement, approval, launch and implementation are distinct events.

SOLUTIONS · SHORTCUT METHOD · WHY IT WORKS

ISRO’s launch register proves launch entries, not every subsequent mission outcome. Distinguish launch date from docking, landing or operational milestones.

> **CA03.1** A. Learn mission and payload as a pair. [C6]

> **CA03.2** B, PSLV-C62; the listed launch date is 12 January 2026. This statement alone does not assert mission success. [C6]

> **CA03.3** C, GSLV-F16, on 30 July 2025. This is older current-affairs revision. [C6]

> **CA03.4** D, SpaDeX, launched 30 December 2024. Keep launch and later docking dates separate. [C6]

CA04.1 A, India. [C7]

CA04.2 C, New Zealand. [C7]

SOLUTIONS · SHORTCUT METHOD · WHY IT WORKS

Office-holder questions are date-sensitive. The RBI item below is phrased as an appointment event, not an unchecked claim that no subsequent change occurred.

> **CA09.1** D, Rekha Gupta. Recheck the official profile close to the exam. [C13]

> **CA09.2** A, Sanjay Malhotra. This tests the dated appointment. [C14]

QUESTIONS FIRST · PATTERN-BASED PRACTICE

CA10.1 I: The 2026 AI Impact Summit venue was in New Delhi. II: Its three pillars were People,Planet,Progress. Choose I only / II only / both / neither.

CA10.2 I: India won the 2026 Men’s T20 World Cup. II: New Zealand won the final by 96 runs. Choose I only / II only / both / neither.

CA10.4 I: The UN Secretary-General is appointed by the General Assembly. II: This follows a Security Council recommendation. Choose I only / II only / both / neither.

SOLUTIONS · SHORTCUT METHOD · WHY IT WORKS

Evaluate each statement independently before selecting “I only”, “II only”, “both” or “neither”. One swapped place or year can make a familiar statement false.

> **CA10.1** Both. Treat venue and pillars as separate checks. [C5]

> **CA10.2** I only. The margin is real, but the winner in II is swapped. [C7]

> **CA10.3** Both. Host varies; date is fixed. [C9]
